FLICKERTALE

VOLUME 45 · NUMBER 4 · APRIL 2015

ILEAD USA NORTH DAKOTA: ON OUR WAY

The first in-person meeting of ILEAD USA North Dakota was held March 23rd-26th at the Bismarck Veterans Memorial Public Library. We have three teams participating in ILEAD USA. ILEADers, mentors, and instructors stepped forth from the Minot Public, Ward County, Minot Air Force Base, Mayville State University, North Dakota State Library, Divide County, and University of South Dakota libraries, as well as the Kitchigami Regional Library System and Minnesota State Library Services.

What's it all about? ILEAD stands for Innovative Librarians Explore, Apply, and Discover. It's a continuing education immersion program for library workers. ILEAD cultivates leadership, project management, collaboration, and participatory technology skills in order to improve and expand the community service librarians provide. Each team identified a community need to address and they're developing a means of meeting it through teamwork, planning, community feedback, development, and grant funding. The arc of ILEAD extends over the course of nine months and future in-person meetings of our cohort will take place in June and October. Ten states are participating in ILEAD USA this year.

The three teams in North Dakota's cohort are Team Econtent Leaders, Team Robot Minot, and Team Unicorn. Econtent Leaders is our tri-state team, consisting of Mary Soucie, Emily Kissane, Stephanie Langer, and Daniel Burniston, with Stacey Goldade mentoring. They're exploring ways to provide easy-access ongoing training and support on downloadable electronic content and devices. Robot Minot consists of librarians from the Minot area, including Paulette Nelson, Kerri Tyler, Pam Carswell, and Julie Reiten; Aubrey Madler is serving as their mentor. They're developing circulating Makerboxes with all the materials patrons will need to design and build robots. Our final team consists of State Library staff: Shari Mosser, Krista Kurtz, Jessica Robinson, and Danielle Paiz, who are being mentored by Traci Lund. They're also developing a circulating kit focused on video production and editing, with an eye to include a quadcopter and Go Pro camera. You can watch the teams' project trailers on the ILEAD USA ND site.

ILEAD USA was funded by the Institute of Museum and Library Services through a grant written by the Illinois State Library. Local arrangements, planning, instruction, and additional funding and support are provided by the North Dakota State Library. The Bismarck Veterans Memorial Library is graciously hosting our in-person meetings throughout the duration. Our instructor corps includes Steven Axtman, Kristin Byram, Kristin Kitko, Ryan Kroh, and BreAnne Meier. Eric Stroshane is the Project Director and BreAnne Meier is the Assistant Project Director for ILEAD USA North Dakota.

The keynotes from our first session, featuring the likes of David Lankes, Eli Neiburger, and Sina Bahram, are available for viewing on the ILEAD USA YouTube Channel.

News and Thoughts...

from State Librarian Mary J. Soucie

Recently, there was a discussion on PUBLIB about what to do with volunteers. PUBLIB is a mailing list for public librarians from all across the US and even some international librarians. It's one of my favorite resources! I love mail lists... or as I still think of them, listservs. I've been a member of PUBLIB ever since I became a librarian 20+ years ago. It seems sometimes that topics cycle through again and again. But I don't really mind- as the list members ebb and flow and practices change, so do the answers to the queries. Even if they don't change all that much, it's still helpful to look at the issues through fresh eyes.

One of the topics that I've seen discussed in many different forums over the years is how to best utilize volunteers. It seems like libraries are approached often by volunteers. They seem to fall into one of a few categories: a high school student looking for service hours for National Honor Society, the Spanish Club, or whatever; a special needs student or adult, often with their caregiver, looking for an opportunity to do something meaningful; a person looking to complete court ordered community service; or someone who loves the library and just wants to help. The first and last categories are my favorite to say yes to. Whenever I would receive a call from a parent looking to set up volunteer hours for their teenager, I would politely but firmly tell them that I would be happy to do so, once the teen called me directly. Some parents accepted this graciously, others not as well. I always felt that it was the duty of the person needing the hours to call, though.

One of the challenges of accepting volunteers is what meaningful tasks or projects do you have for them to work on that won't require too much training and/or supervising. After all, the whole point of volunteers is to lighten the load for staff, not increase it.

At one of the libraries I worked at, we had an Eagle Scout complete his Eagle project at our library by converting our magazine room to a teen room. That was a great project, and not just because the Eagle Scout was my son. Our library really needed a teen area and we didn't have the manpower to accomplish the project. We were approached by another Eagle Scout to create a reading nook outside with pavers and benches for patrons to relax on a beautiful day. Unfortunately, that project never came to fruition and it was still on my list of projects when I left that library.

We lucked out a few times with volunteers who were able to work on their own, once we spent a little bit of time training them. We had one volunteer that helped us process our DVD collection when we changed from just putting an accession number on the call number to a true Dewey call number. Boy were we happy to have that volunteer!

Other projects that I've successfully used volunteers for in the past include cleaning DVDs and CDs; dusting and straightening shelves; assisting with programs; delivering materials to homebound patrons; and Adopt-A-Shelf volunteer, taking responsibility for shelf reading a certain section of shelves. In one community that I worked, the Garden Club decorated the library at Christmas, including making the ornaments for the tree each year; the library always looked spectacular. The best thing was they came and took everything down too!

These are just a few of the ways that I've utilized volunteers in the past. This doesn't touch on Friends of the Library at all of course; that will be a topic for another article. I would love to hear how you use volunteers in your library. Please feel free to share your ideas with me at msoucie@nd.gov. I'll collate them and post the ideas on our Library Development blog.

2015 Summer Class for 1 graduate credit:

Do you need graduate credits for your library or teaching credentials?

The North Dakota State Library is offering a summer class for one graduate credit on June 8 & 9, 2015. The class is 15 hours long and lasts two days. It will be held at the North Dakota State Library in Bismarck. Although it is not required, please feel free to bring a laptop or tablet as the classroom has access to a wireless (Wi-Fi) local network.

Description:

K-12 Research

Students can be savvy Web users, but still have problems finding, evaluating, and using information for research. In this age of spin, it is especially crucial that teachers reinforce student critical thinking and research skills. This course explores and compares tools used for educational research: Internet search engines; the subscription databases; and the ODIN and WorldCat catalogs used for requesting items. The course will focus on research as a process of inquiry and not just fact-finding.

Note: The content for the 2015 class has been revised, so feel free to register, even if you have previously taken the North Dakota State Library summer course.

- Credit is available for Library Media Specialists from VCSU
- Credit for the summer class is available for teachers from MSU, NDSU, and UND
- The cost for the credit is \$50.00 (payable to the university granting the credit)
- The class can also be taken for no credit, free of charge

For more information, please visit <http://library.nd.gov/traininglibraries.html> or contact Steve at 1-800-472-2104 or saxtman@nd.gov.

Digital ScanDay

What is a Digital ScanDay? It is a day to bring in tidbits of personal history in order to enhance our understanding of our state's history. The State Library Digital Initiatives Department held an event in March at the Bismarck Veterans Memorial Public Library, where we had brought 2 flatbed scanners and a camera. Patrons signed up for time slots and brought in pictures, documents and objects that were scanned, described and saved. The patrons received a JPG copy of their items on a flash drive and we kept a high resolution copy to add to Digital Horizons.

Those who participated were very enthusiastic about their contributions. They brought in photos, artwork, posters, documents and objects-- like a county constable badge. It is a great way to collect and access local history. You can see some of the new images in our North Dakota Memories Collection <http://bit.ly/1yAmsIL>. Check out Digital Horizons at <http://digitalhorizonsonline.org/>.

Is your library interested in hosting one of these events? Have questions? Contact Stephanie Kom sbaltzer@nd.gov 328-4629 or Kristin Byram kbyram@nd.gov 328-4656.

ONLINE LIBRARY RESOURCE

NoveList Plus & NoveList K-8 Plus

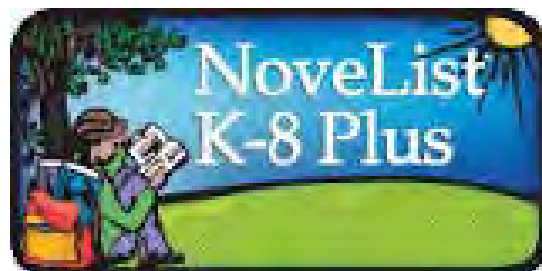

NoveList Plus and NoveList K-8 Plus are readers' advisory tools created by librarians and educational experts to help connect readers to books. The "Plus" means that in addition to fiction, there are also nonfiction titles. Nonfiction is popular with teachers, parents, and also readers who read for pleasure. The nonfiction titles in NoveList Plus include biographies and narrative nonfiction, but no textbooks or instructional how-to books. Both databases have similar features but NoveList K-8 Plus is targeted to a younger audience.

Key Features of NoveList and NoveList Plus:

- Recommended reading lists for fiction and nonfiction
- Find what book is next in a series
- Find read-alikes
- Award winners
- Book reviews from Booklist, Kirkus, Library Journal, Publishers Weekly, and School Library Journal
- Reader book reviews from Goodreads
- Book discussion guides
- Books to movies lists
- Genre overviews
- Search by Lexile reading level
- Citation formats

For librarians, NoveList Plus and NoveList K-8 Plus are valuable tools that will help you serve your readers. If collection development is part of your work, search by Dewey range to beef up weak sections of your library. Teachers will find resources to help teach reading and writing skills and connect books to your curriculum. Readers who are looking for good stuff to read will find a variety of tools to help them find their next book.
